Subject: Re: Section 106 Call for Tongue River Railroad Construction Project (FD 30186)

Dear Richard,

We of the RST-THPO have reviewed the enclosed PA and it meets our expectations for the furthering of this project timelines and goals. We will be expecting that there will be some addressing of verbiage and nuances in the future implementation of this document but that is typically how these things go. Thank you for your diligence and persistence in creating a sound PA that we of the RST-THPO hope will protect those sites, i.e. - cultural landscapes, cultural topography, sites of significance.

Sincerely,
RST-THPO
